Well, In this <sup>(modern era)</sup> cutting edge era, medical profession is one of the top professions globally as it has become the need of an hour. I know ample individuals who has opted <sup>(chosen)</sup> medical domain <sup>(field)</sup> for their career. Here I would like to talk about a person who chose medical field and has become eminent <sup>(famous)</sup> doctor. He is none other than my uncle. He is a renowned <sup>(famous)</sup> ENT Specialist or Otolaryngologist, Actually he is the childhood friend of my father. He started his career as an ENT specialist almost 23 years ago and running a hospital since 2010 <sup>(hardworking)</sup>. He is quite benevolent <sup>(kind, hearted)</sup>, industrious and down to earth personality. My father told me that his friend used to spend my hard hours in library in order to enhance his knowledge

regarding medical profession. Now I can say,  
he knows all ins and outs of ear, nose and  
throat surgeries (all information)

He was not born with silver spoon as his  
father used to earn bread and butter for his  
family. <sup>(not born in such family)</sup>  
<sup>(earn money)</sup> To his dismay, his father was ~~offering~~  
<sup>suffering</sup> from Asthma and sinus problem which caused  
death because of not getting adequate  
(not proper)  
treatment

Since then, my uncle decided to become a  
ENT specialist and offer helping hand to needy  
ones.

Apart from this, he organizes free checkup  
camps annually in rural areas and seeks  
blessings.

He is not solely earning name and fame in  
his local city, but also in other big  
cities of my state.
